On 2 September, a convoy of 15 trucks and 5 x 45-mm AT guns came from the direction of Magdeburg and proceeded toward the Neuplanken wood camp.

- 25X1 7. Between 19 August and 4 September, [] Soviet officers and SM tried to mix with the German population on Saturdays and Sundays. The military post commandant of Neuwaldensleben was repeatedly seen drinking in public with the chief of the S D Kreis organization and VP officers. It was rumored that Soviet soldiers had been permitted to marry German women. On 23 August, there was a football match between a Soviet team from Camp Neuplanken and a German team of the tractor factory in Haldensleben. On this occasion, [] 30 trucks, 15 sedans, 1 military band and about 1,000 men who wore red-bordered black epaulets with tank, artillery and motor traffic insignia; blue-bordered black epaulets with signal insignia; and some black-bordered crimson epaulets. []
- 25X1 [] the Soviet team had previously played against a German team in Dessau.¹

About 6:20 p.m., 2 boxcars loaded with ammunition, 1 boxcar loaded with personnel and 1 flatcar carrying truck [] and 1 field kitchen were seen proceeding through Neuwaldensleben railroad station toward Magdeburg. - 25X1 14. About 3:40 p.m. on 19 August, [] a convoy of 18 trucks
 25X1 which towed mortars, 2 tank trucks and 1 jeep proceeding through
 25X1 Letzlingen toward Born-Haldensleben. []
 25X1 [] On 30 August, 25 flatcars,
 25X1 6 boxcars and 1 passenger car which had come from the direction of
 25X1 Stendal, were unloaded at Gardelegen railroad station. [] 22
 25X1 trucks, 2 ambulances and 22 canvas-covered artillery pieces besides
 25X1 officers and EM. []

 25X1 []
- 25X1 1. [] Comment. The reduced occupation of the wood camp southeast of
 25X1 Juevenitz is probably connected with increased training activities as
 25X1 they are normally observed toward the end of the summer training period.
 25X1 []
 25X1 the Third Shock Army. The Soviet football team was probably formed by the
 25X1 7th Gds Tank Div because a team of the division had previously played in
 25X1 Dessau. []
 25X1 []
- 25X1 2. [] Comment. [] component
 25X1 units of the Third Shock Army were detained in Gardelegen on 30 August. On
 25X1 1 September, [] a tank detachment of the Eighth Gds
 25X1 Army. [] a tank shipment []
 25X1 [] was dispatched from Haldensleben to the Halle area. The shipment
 25X1 observed on 2 September is probably identical with a tank shipment which was
 25X1 seen [] on a siding of Wolmirstedt on the same day. []
 25X1 []. On 6 September, two troop trains with component units of the
 25X1 3d Gds AAA Div from Magdeburg were possibly unloaded in Haldensleben. Most of

- 25X1 3. [] Comment. It appears that component units of the 19th Gds Mecz Div
 25X1 which had practiced in the Letzling Heath area, returned to their barracks
 25X1 installation at the northeastern exit of Hillersleben on 10 September. It
 25X1 is not yet clear, whether the two new barracks buildings mentioned were in
 25X1 the billeting area of the barracks installation at the northwestern exit
 25X1 of Hillersleben, as this was indicated by a previous report []
 25X1 or whether these buildings have been erected at the beginning of the Hillers-
 25X1 leben-Salchau target range. []
- 25X1 4. [] Comment. [] tank unit of the 19th Gds
 25X1 Mecz Div in Hillersleben.
- 25X1 5. [] Comment. On 3 September, the Remonte Schule probably quartered the
 25X1 unidentified motorcycle battalion of the 207th Mtz Rifle Div. []
 25X1 []. The small signal unit observed probably belongs to the radar
 25X1 set located northeast of the Remonte Schule. These data are no sufficient
 25X1 evidence for the presence in the Fliegerhorst Kaserne of the 598th Mtz Rifle
 25X1 Regt of the division. [] the mortar
 25X1 unit belonged to the Third Shock Army.
- 25X1 6. [] Comment. The designation of SsU-1 for the SP gun equipped with a model
 25X1 A-19 122-mm gun on an JS-2 chassis is reported for the first time. The model
 25X1 1931/44 "A-19 S" 122-mm SP gun is not fitted with a muzzle brake. According to
 25X1 observations made in East Germany, the model 1944 "D-25 S" 122-mm SP, which is
 25X1 fitted with a muzzle brake is the most frequent type of SP gun. There is a
 25X1 possibility that the SP gun without muzzle brake has been given the official
 25X1 designation "SsU-1", while the SP gun with muzzle brake has been renamed
 25X1 "JSsU-122".
